INTRODUCTION

Conflict Resolution Studies (CRS) seeks to understand the nature and dynamics of human conflict, and to look at appropriate alternatives for dealing with conflict in ways which develop healthy relationships and prevent violence. Conflicts are analyzed from an interdisciplinary perspective together with topics such as violence, power, justice, peace, communication, culture, war, conflict transformation and dispute resolution. CRS prepares students to understand and interact constructively in response to personal, local and global conflict situations.

Conflict Resolution Studies is one of the two majors offered through Menno Simons College (MSC), an affiliated college of the University of Winnipeg. There is flexibility in this program to allow for double majors. All MSC students register as University of Winnipeg students. All degrees are conferred by The University of Winnipeg. For additional information about Menno Simons College, see "Other Programs" in the Course Calendar.

Students choosing to major in CRS should consider the following points:

1. The 3-year CRS BA is designed for students who have an interest in Conflict Resolution Studies, with a particular focus on the interpersonal, Restorative Justice, Nonviolence, or Conflict, Poverty and Development.
2. The 4-year CRS BA is designed for students who plan to pursue professional work or graduate studies in the field of conflict resolution.
3. The CRS minor is designed for students pursuing a degree within another discipline, who have an interest in the intersection of Conflict Resolution Studies, Peace Studies and their chosen field.

It is preferred that students taking part in an international practicum do so prior to their final semester of courses.

Students must explore options with the Practicum Director well in advance of the term in which they propose to engage in these practicum activities. To register, students need permission from the Practicum Director and they must have a cumulative grade point average of 2.75.

CRS Area Courses

Area courses are rooted in traditional disciplines as well as other interdisciplinary programs and address issues that are directly relevant to the CRS Program. These courses are organized below into general categories emphasized through the CRS course concentrations, although any of these courses may relate to more than one of the CRS concentrations. Categories of research and language skills are included to emphasize the specialized cognate courses recommended for the 4-year program.

Note: Most courses from other departments and programs will have their own prerequisites. Courses requiring prerequisites are marked with an asterisk. It is the student's responsibility to determine what the prerequisites are.

Note: The Area Courses list is meant to be a list of courses complementary to the special interests of CRS students. Because curriculum offerings keep changing, and because students may have some specific interests not included in the Area Courses list, students may make application to the MSC Academic Advisor to consider some other courses relevant to their major interests for inclusion as Area Courses.
