## INTRODUCTION

International Development Studies (IDS) is an interdisciplinary major that challenges students to explore the causes and consequences of processes that promote some individuals, communities, and nations, and exclude others. IDS students are prepared for citizenship in an increasingly interdependent global community and are encouraged to envision paths towards a transformed, just world. The IDS program is jointly offered by Menno Simons College (MSC) and the University of Winnipeg. The interdisciplinary major of IDS can be taken alone or can be effectively combined with another major like Anthropology, Conflict Resolution Studies, Economics, Environmental Studies, Politics, or Sociology. All MSC students register as University of Winnipeg students and all degrees are University of Winnipeg degrees. For additional information about Menno Simons College, see the "Other Programs" section of this Calendar.

The IDS program builds on the strength of College-offered interdisciplinary courses, referred to as IDS Core Courses, and University-offered disciplinary courses, referred to as IDS Area Courses. IDS Core Courses accent problem-based analysis and creative thinking within an explicit ethical framework, rooted in community. IDS Core Courses also address both theoretical and practical development issues. IDS Area Courses include key courses offered by traditional disciplines and interdisciplinary programs that have historically been engaged in, or relate to, the study of development. The IDS program focuses on development processes at the global, national and community levels, but gives particular emphasis to development at the community level and to the work of non-governmental organizations and popular movements. Students in the IDS program are encouraged to engage in experience-based learning through the College's practicum program.

Students choosing to major in IDS should consider the following points:

1. The 3-Year IDS BA is designed to serve students with an interest in international issues, but who are not necessarily planning to seek work or do further study in the field of IDS. The 4-Year IDS BA is designed to serve students who plan to work in the field of development, whether overseas or in North America, and to prepare students for graduate studies in IDS or a related field.
2. The IDS Minor complements a student's major area of study with a focus on initiatives that address poverty and marginalization at the local, national or global level. Students have the option of consulting with the Menno Simons College Academic Advisor for assistance in planning a Minor.
3. From 2007-08 requirements for the 3-Year IDS BA underwent a small change and requirements for the 4-Year IDS BA underwent a significant change from 2005-06. Students who registered at the University of Winnipeg prior to 1 May 2006 may choose to follow the old IDS degree requirements or to adopt the new ones. Students who register after 1 May 2006 must follow the new requirements detailed below.
4. In 2016 the IDS Honours BA was suspended. Students who declared an IDS Honours Major before September 6, 2016 may still complete their major following the degree requirements outlined in the 2016-17 Academic Calendar (or for the year in which they declared). The Honours Major may no longer be declared.
5. Please note that some IDS Area Courses have course prerequisites. IDS students are expected to complete these prerequisites or make alternative arrangements with the particular department or program.
