

# DAY OF 1,000 LUNCHES

The Canadian Landmine Foundation (CLMF) is working against time to remove landmines before they damage another farmer, mother, child, or peacekeeper and to aid those who have already been hurt.

Participate in **Day of 1,000 Lunches** during the summer of 2007

## Day of 1,000 lunches

Invite your friends and neighbours to join you for lunch and, instead of them bringing a contribution to the meal, invite them to contribute to bringing peace to some of the most disenfranchised people in the world.

It is amazing how quite small amounts from each person can multiply! We invite participation any time during the summer of 07 but particularly on August 9<sup>th</sup> in celebration of Peacekeepers Day. Join us!

*If we all do a little,  
We can accomplish a lot.*  
[www.clmf.org](http://www.clmf.org)

Canada's Peacekeepers know too well the civilian impact of landmines. Removal of landmines is a necessary step in restoring peace. During 2007 we will honour Canada's most experienced peacekeeper, Colonel Don Ethell, by undertaking landmine clearance in Bosnia; a policing peacekeeper to be nominated by the RCMP, by undertaking the training of a mine detection dog; and the sacrifice of peacekeepers families by undertaking a survivor assistance project in Cambodia.

This summer have a lunch, help us clear landmines, and salute our peacekeepers!
