

APPENDIX A - EXTERNAL RESEARCH FUNDING LINKS

CFI www.innovation.ca

"The Canada Foundation for Innovation (CFI) is an independent corporation established by the Government of Canada in 1997, with a goal to strengthen the capability of Canadian universities, colleges, research hospitals, and other not-for-profit institutions to carry out world-class research and technology development."

CIHR www.cihr-irsc.gc.ca

"Canadian Institute for Health Research is Canada's major federal funding agency for health research. Its objective is to excel, according to internationally accepted standards of scientific excellence, in the creation of new knowledge and its translation into improved health for Canadians, more effective health services and products and a strengthened Canadian health care system."

HRDC www.hrdc-drhc.gc.ca/program/researchinstitutes.asp

"Human Resource Development Canada's research and development programs help support activities of the national social non-profit sector. They promote nationally significant social development research. These programs support practical research aimed at looking for better ways of helping people return to or keep employment."

SSHRC www.sshrc.ca

"The Social Sciences and Humanities Research Council of Canada (SSHRC) is an arms-length federal agency that promotes and supports university-based research and training in the social sciences and humanities. Created by an act of Parliament in 1977, SSHRC is governed by a 22-member Council that reports to Parliament through the Minister of Industry. SSHRC-funded research fuels innovative thinking about real life issues, including the economy, education, health care, the environment, immigration, globalization, language, ethics, peace, security, human rights, law, poverty, mass communication, politics, literature, addiction, pop culture, sexuality, religion, Aboriginal rights, the past, and our future."

NSERC www.nserc.ca

"The Natural Science and Engineering Research Council's role is to make investments in people, discovery and innovation for the benefit of all Canadians. They invest in people by supporting more than 9,000 students in their advanced studies. They promote discovery by funding more than 8,700 researchers every year. And they help make innovation happen by encouraging more than 1,000 Canadian companies to invest in university research."
