MISSION
Our mission is to provide an environment where students in Kinesiology and Applied Health can pursue their potential through our commitment to excellence in teaching, research, and community service.

INTRODUCTION
Kinesiology is the art and science of human movement from a psychological, sociological, biological, mechanical and physiological perspective. Professionals in the field of Kinesiology are interested in increasing physical activity participation, enhancing sport performance, development of physical literacy, the technical and tactical aspects of coaching, the short and long term effects of exercise and the role of physical activity in society.

The Department of Kinesiology and Applied Health at The University of Winnipeg is student-centred with small classes and labs and accessible professors. Our professors have expertise and research interests in areas that include inclusive physical activity, physical activity and aging, sports nutrition, coaching, sport and exercise psychology, motor behaviour, exercise physiology, biomechanics, and athletic therapy

NOTE: Starting Sept 2020, the Department will discontinue the Bachelor of Kinesiology (General), Bachelor of Kinesiology (Sport Coaching) and Bachelor of Science in Kinesiology (Exercise Science) programs. Instead, all these areas will be incorporated into a single Bachelor of Kinesiology degree.

Canadian Memorial Chiropractic College Academic Pathway
The University of Winnipeg and the Canadian Memorial Chiropractic College have entered into an articulation agreement in which students can complete three years of study towards the 4 year BKin degree and apply for early consideration to the Chiropractic College after their second year of study; if accepted by CMCC, they would transfer to the Chiropractic College after their third year of study at the University of Winnipeg and go on to complete four more years of study towards a degree in Chiropractic; after which time, The University of Winnipeg will recognize one year of Chiropractic study towards a 4 year BKin degree. Upon completion, students will graduate with two degrees within a 7 year span that would have otherwise taken 8 years to complete.

To be accepted into the CMCC Academic Pathway you must contact the Department Assistant in the Department of Kinesiology and Applied Health at kinesiology@uwinnipeg.ca or by phone 204.786.9024.
