INTERDISCIPLINARY LINGUISTICS (LING)

DEGREES/PROGRAMS OFFERED
3-Year BA
4-Year BA
Honours BA
Minor

INTRODUCTION
Linguistics examines the complexities of language use in daily communication in various social and cultural contexts. Its major subdisciplines include phonetics and phonology, morphology, syntax, semantics, and pragmatics. A better understanding of how language encodes meaning helps students write, read and speak with greater confidence, fluency, and power. It also facilitates learning additional languages. A better understanding of how the cultural context influences and is influenced by linguistic choices enables students to better understand others and to extend their own range of and success with subtle forms of expression.

Through a 3-Year BA, 4-Year BA, or Honours BA, students investigate written and spoken, literary and non-literary texts from relevant theoretical perspectives. Linguistics courses are taken in several departments: Anthropology, Conflict Resolution Studies, Developmental Studies, English, Modern Languages and Literatures, Philosophy, Psychology, Religion & Culture, Sociology, and Rhetoric, Writing & Communications, hence the interdisciplinary nature of the program.
