Guided by an understanding of Indigenous principles, experience, knowledge, and rights, **The University of Winnipeg's Master's in Development Practice: Indigenous Development (MDP)** provides you with the range of skills, knowledge, and understanding required to effectively practice sustainable development. Culture, identity, and the right to self-determination infuse the comprehensive curriculum that includes environmental and social sciences, and health, economic, and management disciplines. The 24-month program is eminently practical and experiential learning is prevalent throughout. With two 3-month field placements, students have the opportunity to put their learning into practice, gain important applied experience, and establish important connections with organizations engaged in Indigenous development around the world. MDP graduates are trained integrators, sought after by employers in the public, private, and not-for-profit sectors.

MDP students join a prestigious global network linked together by the MDP Secretariat. By centring Indigenous knowledge and experiences in its curriculum for sustainable development, UWinnipeg's MDP is unique among the more than 30 institutions on 6 continents who offer an MDP.

Students choosing the MDP in Indigenous Development should consider the following points:

1. The 2-Year MDP is designed to serve students with a professional interest in Indigenous development, in Canada and abroad.
2. The program requirements are set in part by the network of MDP programs world-wide with the additional emphasis on Indigenous development unique to the University of Winnipeg program.
3. Students complete two field placements of 3 months' duration, generally during spring/ summer terms. Students are supported financially during placement with MDP field placement bursaries.
4. Students have 6 credit-hours of electives and the possibility of pursuing independent primary research via the MDP Major Research Paper stream.
5. It is possible to complete the MDP on a part-time basis.
