

**CAREERCONNECTIONS™**  
find your place in insurance

**Think insurance is boring? Think again.** We're at the forefront of today's game changers – big data, the sharing economy, cannabis, autonomous vehicles, cyber security, and yes... even global pandemics! There's also tremendous variety in the career paths that are available – Risk Analysis, Business Development, Claims, Underwriting, Actuarial, Sales and Service, Data Analytics, HR, IT, and more...Career Connections, a division of the Insurance Institute, is a career awareness program aimed at encouraging young adults and career seekers to pursue one of the many skilled professions available in the insurance industry. We've got tools and resources that help you explore and understand how you can find your place in insurance! Whether you're studying **Arts, Science, Technology/Analytics, Kinesiology, Business, Actuarial Science, Insurance & Risk Management, Engineering, or Health Sciences** there is a place for you in this exciting and inclusive industry!!

To find out more about where you might fit in with your post-secondary education, please visit us at our booth or on our Web site. You may be surprised to find that insurance isn't what you think. It's a whole lot more.
