

Arcane Horizon was formed in July of 1995 to support two men to live in their own home in the community. A continually growing agency, today Arcane Horizon supports over 60 men and women through a variety of different supports, and employs a staff team of over 200 dedicated people. Our mission is to provide community living supports that focus on quality of life, respect and dignity for adults with intellectual disabilities. Arcane Horizon was founded on the Gentle Teaching philosophy which helps us to provide consistent, individualized and quality support to the individuals we serve.
