

Our name is a reflection of our mission – to Empower People In Community. We have proudly supported people living with intellectual disabilities for fifty years. Providing them with meaningful opportunities to connect and contribute to their communities.

Our vision is for all people to be valued members of the community, have significant personal networks, equal access to opportunities and to contribute to a better society. We believe that everyone has inherent value, a purpose to fulfill and is deserving of unconditional acceptance.

A key focus of our work is delivering holistic, person-centred care with the ultimate goal of improving people’s overall quality of life in a way that is driven by their self-determination. This includes providing support, resources, programs and services to people that will enable them to enjoy full and rewarding lives.
