

Arcane Horizon was formed in July of 1995 to support two men to live in their own home in the community. A continually growing agency, today Arcane Horizon supports nearly 70 men and women through a variety of different supports and employs a staff team of over 210 dedicated people. Our mission is to provide community living supports that focus on quality of life, respect and dignity for adults with intellectual disabilities. Arcane Horizon values an inclusive and engaging workplace and a high quality of supports for the individuals we serve.
