

THE UNIVERSITY OF
WINNIPEG

Co-operative Education

The University of Winnipeg's Co-operative Education Program focuses on students from Applied Computer Science, Business and Economics but is open to all undergraduate students. Students who join the Co-op Program receive pre-placement training about resume writing, interview skills, job search, networking, professionalism, workplace etiquette, career coaching and much more! All Co-op work terms are directly related to YOUR degree of study. Thus you get to apply the theoretical knowledge that you have learned in University in a professional environment. Come by our booth to learn more about this great program.
