12:30 - 1:20 PM

Rob Hagiwara is known primarily as an acoustic phonetician working on North American English vowels, although in his heart of hearts he believes he works on consonants and exotic languages. A professor at the University of Manitoba since 2000, Rob regularly teaches courses related to phonetics, phonology, and speech anatomy and physiology. He was introduced to Garifuna in graduate school, in a field methods course directed by Dr Pam Munro.
