### **Job Posting - Position Description:**

#### **Our Purpose**

At Deloitte, we are driven to inspire and help our people, organization, communities, and country to thrive. Our Purpose is to build a better future by accelerating and expanding access to knowledge. Purpose defines who we are and gives us reason to exist as an organization.

By living our Purpose, we will make an impact that matters.

Are you ready for a challenge? Participate in QuickStart, a two-year rotational program in Deloitte's Risk Advisory practice, where upon successful completion you will permanently join one of our market offerings.

What will your typical day look like?

There are no typical days! Working in Risk Advisory offers a dynamic, fast-paced environment, which presents you with the opportunity to continually grow and learn from people with different backgrounds and working styles. Your days will be filled with impact – professionally, socially, and personally. Professionally, you will synthesize and communicate complex analyses to senior executives for them to take effective action at their global organizations. Socially, you will work through exciting challenges with peers and colleagues, solving complicated and substantial problems. Personally, you will share your successes and learnings with colleagues that will expand your network and become colleagues for life.

As a consultant, you will complete a two-year rotational program pathway where you will experience multiple different services within Risk Advisory, as listed below. Once you have completed the rotational program, you will have the opportunity to align yourself with an area of our business based on your interests, capabilities and business need. The availability of the rotational pathways and services is dependent on individual business needs and differs per regional office.

#### **Rotational Program Pathways:**

- Controls and Assurance Advisory (rotational pathway available in all offices):
- Rotational program consultants in this pathway have an interest in risk and controls, audit methodologies, business and IT operations, IT risk, analytics and data visualization
- Your pathway may include experiences in: Internal Audit, IT & Specialized Assurance, Extended Enterprise, Digital/AI Controls/Algorithms.
- Business Advisory (rotational pathway available in Toronto, Calgary, Vancouver, and Montreal offices):
- Rotational program consultants in this pathway have an interest in business operations, facilitation, problem solving, data analysis and data visualization.

- Your pathway may include experiences in: Extended Enterprise, Sustainability, Financial Industry Risk & Regulatory, Crisis and Resilience, Financial Crime.
- Technical Advisory (rotational pathway available in Toronto office):
- Rotational program consultants in this pathway have an interest in coding, IT acumen (operating systems/databases/applications), artificial intelligence and machine learning, data analytics and data visualization.
- Your pathway may include experiences in: Digital/AI Controls/Algorithms, Crisis and Resilience, Financial Industry Risk & Regulatory, IT & Specialized Assurance and Internal Audit.

Please note the rotational program and pathways are tailored for each region to align to their specific business needs and resourcing requirements. Candidates pursuing their CPA designation should select the Controls and Assurance Advisory rotational pathway to fulfill their CPA designation requirements. CPA candidates in Quebec will need to complete a rotation in Deloitte's Audit & Assurance practice as part of their QuickStart program in order to meet CPA Quebec designation requirements.

### About the team

At Deloitte, we believe taking risks is a business imperative. Risk Advisory professionals are advisory specialists that help our clients navigate business risks and opportunities, embrace complexity, accelerate performance and gain competitive advantage. Our QuickStart rotational pathways have been designed to provide our new consultants with the opportunity to experience our different services within Risk Advisory and develop key skills to become a successful consultant.

Enough about us, let's talk about you

In this role, the expected qualifications are:

- Working towards completing a post-secondary degree or diploma by September 2022
- An inclusive team player who is passionate and motivated
- Excellent communicator and relationship builder
- Proficient in spoken and written English; Bilingualism in English and French is required for the Quebec Region
- Self-starter and able to conceptualize creative approaches and solutions
- Curious and comfortable with ambiguity
- Dedicated to providing meaningful service to our clients
- Some level of travel may be required
