## Related to Scheduling and Registration

In order to guarantee that all students are able to fulfill their degree requirements, students will be assigned to a particular timetable of courses. By doing this, we ensure that all students are able to register for the courses they need without worrying about potential conflicts or courses filling up. Students must register for the specific courses and sections to which they have been assigned. Many students have valid reasons for wanting particular courses or sections; however NO EXCEPTIONS will be made. To be fair and consistent, we cannot consider individual requests to accommodate work schedules, commuting time, child care, course preferences, extra-curricular activities at the practicum school, or any other reasons for wanting specific courses or sections.

**C**ertification Year students will receive a mailing with a list of their assigned courses and schedules by mid June. Until then, students should plan to be available for classes and practicum every day, from 8:30 a.m. – 6:30 p.m.

All other activities, including work, child care arrangements, and extra-curricular activities at the host school must be scheduled around classes and practicum commitments. Students who are unable to devote this time to their studies should defer certification until they are in a position to do so. Students who are unable to attend Certification Year 4 can request to have their space in the program held for a maximum of one year.

It is expected that students are familiar with the rules and regulations governing the education program. Ignorance of requirements and policies will not be considered in determining the validity of special requests.

Students entering Certification Year 4 will register in Tier 2 or Tier 3, depending on how many credit hours have been completed by April, 2021. Students are expected to register at their appointed time. If they do not, the Faculty of Education Office will not guarantee entry into required courses that have filled. We will not register students over capacity in any course. We do not maintain waiting lists for courses.

Students are advised to consult the [General Calendar > Areas of Study > Education > Faculty of Education Rules and Regulations \(page 20\)](#), for additional rules governing courses, practicum, and performance in Certification Year 4.

Your space can be held for a maximum of one year.

## **Condensed Courses and Scheduling**

**E**ach term will consist of ten weeks of lectures, followed by a student teaching block. In order to accommodate the student teaching blocks, certification year courses will be offered in a condensed format, so that they can be completed before student teaching begins. Condensed courses may be offered in the Fall term, the Winter term, or across both Fall and Winter terms. Curriculum, Instruction and Assessment courses and condensed education electives will be scheduled in the two 10 week lecture blocks at the beginning of each term. These special condensed courses will be indicated by a section number in the 150s in the timetable – e.g. EDUC-4410(3)-150. Generally speaking, these condensed courses are the **ONLY** courses that you can take in Year 4. Arts and Science courses offered in the regular 12 week format will conflict with your student teaching blocks.

While it may be possible to take a non-condensed Arts or Science course during an evening slot, your student teaching blocks will place demands on your time and energy. The student teaching blocks will require intensive at home preparation during the evenings. You should make a realistic assessment of the work load that you will be able to manage.
