Registration Materials

Most of the university's course information is posted online. Students are advised to visit The University's website, and to look at the following documents for more detailed information:

The Academic Calendar

The Academic Calendar contains information on degree requirements, program rules and regulations, and course descriptions. The Academic Calendar is available online at: uwinnipeg.ca/academics/calendar/index.html

Course Schedules

Timetables for students entering Year 4 will be emailed with your course checklist.

Registration Materials

You will need your Certification Year 4 Registration Report (emailed in mid June). This report includes the following documents:

- › A **Stream Checklist** - the checklist outlines your degree requirements, and lists the courses that you have completed to date, as well as any courses that are in progress. Please review this checklist for accuracy, and report any errors to the Faculty of Education office as soon as possible.
- › A **Course Registration** sheet - this form lists the specific courses (and sections) that you must take in Year 4. Please use this form as a reference when completing your online registration.
- › **Timetables** for Fall and Winter - these timetables outline the weekly course schedule for your assigned cohort.

Regulations Related to Course Scheduling

Students have a prescribed schedule, and have been assigned to specific courses and sections for the upcoming year. **No schedule changes can be accommodated, even when there is space in other sections.** You must schedule all other activities, including work, around your classes and practicum commitments. Students who are unable to devote this time to their studies should defer certification until they are in a position to do so. Students who are unable to register for Certification Year 4 can request to have their space in the program held for a maximum of one year.

Permission to Register Over Capacity

Please be aware that instructors cannot give permission to register over capacity in their courses. Permission can only be obtained from the Faculty of Education Office, and will only be considered if there is a direct conflict between two specific required courses. Conflicts with job hours or other personal commitments, or wanting to take courses that have been reserved for other groups of students, or wanting to take courses at certain times of the day are not considered to be exceptional circumstances, and cannot be accommodated. We appreciate your understanding in this matter. We reserve the right to move students to a different course or section after they have registered. This will only occur if there has been a late change to the timetable, such as a course being cancelled or rescheduled.

Students who are planning to work ahead toward Certification Year 5 must wait until open registration before registering for these courses. This will ensure that Year 5 students receive priority for space in these courses. Students who register for Year 5 courses before July 18 may be withdrawn if a Year 5 student is unable to register because the course has filled.

Condensed Courses

Certification courses will be offered in a condensed format, so that they can be completed before practicum blocks begin. Each term will consist of ten weeks of classes and exams, followed by a student teaching block.

Arts and Science courses offered in the regular 12 week format will conflict with student teaching blocks. While it is possible to take a non-condensed Arts or Science course during an evening slot, your student teaching blocks will place demands on your time and energy. It is important to be able to make a full commitment to student teaching in order to get the most benefit from your experience. For example, you may wish to participate in extracurricular activities at your school, which are often scheduled after normal school hours. You may wish to have meetings with your cooperating teacher or faculty supervisor later in the day. Make a realistic assessment of the work load that you will be able to manage before registering for a non-condensed evening course.

Students in Certification Year 4 must register for numerous courses. It is possible for errors to be made when you complete your online registration. Please check your registration carefully, and ensure that you have selected the proper courses and sections. If you discover an error later, and your intended course or section has subsequently filled, we may not be able to accommodate a change.

Regulations Related to Course Scheduling

Attendance Policy

The Bachelor of Education Program leads to a professional degree. Students are expected to attend, be punctual and participate in all classes. These expectations acknowledge their importance for the teaching and learning process and the professional responsibilities of teachers. Students are encouraged to volunteer and participate in extra-curricular activities in their host schools. However, students must ensure that no conflict occurs between the school activity and their attendance in class. **Students are not to miss University classes for school activities.**

Academic Advising

Advisors in the Faculty of Education Office are very busy between April and August with admissions and new student orientations. Please expect to wait at least a few days for a response to emails and phone calls. If your questions or concerns are complex, please contact your academic advisor to make an appointment.

Required Courses in Certification Year 4

Elementary Curriculum, Instruction and Assessment Courses

Elementary students must complete a block of teaching methods courses called Curriculum, Instruction and Assessment (C, I & A) courses. Students will complete C, I & A courses in the following four areas: Language Arts, Math, Science, and Social Studies. Students will take foundation courses in each area in the Fall term, and advanced courses in the Winter term. C, I & A courses in these four areas have been scheduled as a “package” of courses, designated by a particular section number. Students have been assigned to a particular section of C, I & A courses. The composition of these sections may change in Year 5. **No section changes will be permitted.**

Practicum Blocks I and II

Students will complete two practicum blocks in Year 4. The blocks are represented by course numbers, and are each worth 3 credit hours. In addition to regular tuition fees, students will be charged a supplemental practicum fee of approximately \$191.65 per block (\$383.30 for the year).

Fall Practicum Block

All Elementary students will register for EDUC-4770-150 Practicum Block I Elementary.

Winter Practicum Block

All Elementary students will register for EDUC-4771-150 Practicum Block II Elementary.

In addition to these blocks, students must spend one full day or two half days per week in their host schools. Unlike practicum courses in Years 2 and 3, students are not required to formally register for their weekly student teaching times.

Certification

Year 4 Courses

Course		Term	Credit Hours
EDUC-4710	CIA: English Language Arts - 1	Fall	3
EDUC-4711	CIA: English Language Arts - 2	Winter	3

More Information

Practicum Meetings

The Practicum Office will hold meetings for Certification Year and After-Degree students on three evenings throughout each term. These meetings will give students an opportunity to learn about a number of facets of student teaching both in its execution and in preparation for practicums. Four themes will be visited - professional practice, preparation, mental wellness, and opportunities for career development. Meetings will be held online and recorded. More information will be provided to students at the start of the Fall term.

Here. We Grow!

The Faculty of Education will offer a series of professional development and career exploration seminars as well as workshops and placements throughout the year for all education students. These sessions will cover a variety of topics, such as creating engaging field trips, learning about speakers available to you and your students and other opportunities to see the variety of 'teaching' that occurs in Manitoba schools. As well, tailored for our graduating students, Career & Hiring Fair will be offered allowing several school divisions to present information sessions on employment prospects and application procedures.

Away. We Grow!

Throughout the school year, opportunities for students will be advertised in the "Here. We Grow" nexus site. These opportunities will range from one to multiple day placements and trips, to see teaching in a variety of formats and places. Examples of past opportunities have been St. Amant School, St. Boniface Bio-Lab, Nelson House, Shoal Lake 40, and Wanipigow Schools. Interested students will be contacted and selected dependent on a variety of criteria including standing in their classes and attendance. All students can express interest in being part of these unique and interesting adventures in education!

Frequently Asked Questions

Why are some courses reserved for other students?

Each year, there are approximately 600 students in Certification Years. We must distribute enrollments so that all students have equal access to the courses that they need. Each stream has specific required C, I & A courses, and all other courses must be scheduled around them. There are limited time slots available for other courses. We therefore reserve courses that work with particular C, I & A combinations. We must restrict course selection so that everyone has a chance to fulfill their particular degree requirements.

I can't take courses at certain times of the day

Certification Year is a full time, professional portion of the B.Ed. program. Students must be available to take classes from 8:30 a.m. to 6:20 p.m. on any day of the week. All other activities must be scheduled around your courses and student teaching commitments. The courses and practical experience in Certification Years form the foundation for your future career, and should be given high priority so that you can be successful. If you are unable to devote adequate time to your studies, you should consider deferring certification year.

Can I take a different section if there is still space available?

Students have varied reasons for wanting to take courses at particular times of the day. However, we cannot accommodate individual scheduling preferences. Most students make the effort to be available for their assigned courses – this often means adjusting work hours, making child care or travel arrangements, and foregoing volunteer or extra-curricular activities. It would be unfair to these students if we allow others to make scheduling changes. In order to ensure that all students are treated fairly and consistently, **no course or section changes are allowed, even when there is space available.**

Why can't students register over capacity?

Class size is determined by a number of factors, including pedagogical reasons, professors' workloads, room capacity, etc. The maximum capacity for each class has been carefully determined, and is non-negotiable.

Is a larger classroom available?

The Faculty of Education has designated classrooms assigned for its use. Typically, all of our classrooms are in use from 8:30 a.m. to 6:30 p.m. daily. No other classrooms are available.

Can the professor give me permission?

There are many separate streams and programs within the Faculty of Education, each with different degree requirements. Because of this complexity, authority for giving permission to register over capacity in courses has been centralized. Academic Advisors are able to see how particular courses fit with overall degree requirements, and are able to suggest appropriate alternatives if certain courses have filled. Typically, permission to register over capacity is granted only when two specific required courses conflict.
