

PRE-PROFESSIONAL STUDIES

PRE-OCCUPATIONAL THERAPY

Occupational therapists help mentally, physically, or emotionally disadvantaged individuals to develop, recover, or maintain daily living and working skills. Employment opportunities exist in hospitals, private practice, schools, and industry.

The University of Winnipeg is an excellent place to fulfill the entrance requirements for Occupational Therapy at the University of Manitoba or at other universities.

YOUR EDUCATION

Year 1-3: Pre-Occupational Therapy at The University of Winnipeg

- Each occupational therapy program has its own entrance requirements. To meet the entrance requirements for Occupational Therapy at the University of Manitoba, you will complete at minimum a **three-year (90 credit hour) degree**, including the “Pre-Professional Requirements” below.
- You will graduate with a **Bachelor of Science or Bachelor of Arts** degree from The University of Winnipeg. The degree you earn will depend on your course selection and interests; while there are required and recommended courses, there is no one degree or program that is required for entry to occupational therapy.

Years 4-5: Professional Studies: Occupational Therapy

- During your pre-professional studies at The University of Winnipeg, you will apply for admission to occupational therapy at another university.
 - Enrolment in occupational therapy programs is limited, and only qualified applicants are chosen.
 - At least two more years of study are required to complete a master’s degree in occupational therapy.
-

PRE-PROFESSIONAL REQUIREMENTS

The School of Medical Rehabilitation at the University of Manitoba offers a two-year Professional Master’s Degree Program in Occupational Therapy. Before entering the program, students must have completed at minimum a degree in Arts or Science (other relevant degrees may also be considered), as well as the specified prerequisite courses – **see next page**. A minimum grade point average of B (3.0) in the last 60 credit hours is required, and all prerequisite courses must have a grade of B or higher.

The courses listed below are University of Winnipeg courses that satisfy the University of Manitoba's prerequisite courses for the Professional Master's Degree Program in Occupational Therapy:

**BIOL-1112(6) Human Anatomy & Physiology OR
KIN-2301(3) Human Anatomy AND KIN-2204(3) Introduction to Human Physiology**

STAT-1301(3) Statistical Analysis I OR STAT-1501(3) Elementary Biological Statistics I

Psychology – Most courses in the Department of Psychology will be considered (ex. PSYC-1000(6))

Social Science - Most courses in Sociology meet the Social Science requirement. Cultural Anthropology and Human Geography courses will be considered. (e.g.SOC-1101, ANTH-1002, GEOG-1102)

There are many other courses that will add to your background knowledge. Courses related to human development (child, adolescent, adult), health studies, kinesiology, and higher level behavioural and social sciences are especially helpful in preparing you for the occupational therapy program. Courses that emphasize academic writing will also be of benefit.

Please see University of Manitoba Occupational Therapy admission documentation for complete details. As admission requirements may change from year to year, students are encouraged to review all admission documentation yearly in anticipation of any changes that need to be incorporated into their plans.

YOU SHOULD ALSO KNOW...

In Canada, approximately 14 universities offer occupational therapy programs, most at the Master's level, which is now the level required to enter the profession. Some of these universities also offer a pre-professional undergraduate degree. Explore your options at the Canadian Association of Occupational Therapists (CAOT) website: www.caot.ca

Note: You must consult with the school where you plan to complete your studies to ensure you choose an appropriate set of courses, and that you will meet the entrance requirements for your Occupational Therapy program of choice.

REQUIRED HIGH SCHOOL COURSES

You must meet The University of Winnipeg's general admission requirements. In addition, **Pre-Calculus Math 40S or Applied Math 40S** is required to take some courses in pre-occupational therapy. Biology 40S, Chemistry 40S, and Physics 30S or 40S are strongly *recommended*.

What if I don't have these high school courses? You can still pursue your pre-professional studies, but you might not be able to enroll in certain courses until you obtain the pre-requisites. There are two ways you can do this here: take "Foundation" courses at UWinnipeg that are equivalent to high school-level math and science (MATH-0041 & MATH-0042; CHEM-0100) or complete high school courses at The Collegiate.

HOW TO APPLY

For more information on application requirements and deadlines, and to apply online, please visit uwinnipeg.ca/apply.

Note: Admission to The University of Winnipeg does not guarantee admission to an Occupational Therapy program.

In any case where the University Academic Calendar and this fact sheet differ, the current Calendar takes precedence.
