### GEOG-1205(3)-001 Science for a Dynamic World: Introductory Physical Geography Fall Term 2022 (Sep to Dec)

Course Instructor:	Dr. Danny Blair
Office:	5L33 (5 <sup>th</sup> floor Lockhart Hall)
Phone:	(204) 786-9236
Classroom:	5L24 (5 <sup>th</sup> floor Lockhart Hall)
Lectures:	Mon/Wed/Fri, 9:30-10:20 am
Office Hours:	Mon/Wed 10:30 – 11:30 am; or by appointment at other times
Email:	d.blair@uwinnipeg.ca

Note: This course has a lab component. Information about the labs is found further down in this course outline.

### **TEXTBOOK** (Recommended):

### **Geosystems: An Introduction to Physical Geography**

Updated 4th Canadian edition, e-book R.W. Christopherson, G.H. Birkeland, M.-L. Byrne, and P.T. Giles (2019) Pearson Education, Inc. ISBN 978-0-13-340552-1.

**Textbook Website** (where you can buy it much cheaper than thru the bookstore): <u>https://www.pearson.com/store/p/geosystems-an-introduction-to-physical-geography-updated-fourth-canadian-edition/P100002992950</u>

### LECTURES:

- Students are expected to be present during our regular meeting times, every Monday, Wednesday, and Friday, 9:30-10:20 am.
- Attending the course lectures is vital to your understanding of the course content.
- The instructor will upload the lecture slides and supplementary materials on Nexus for the students to access and use.
- Students are responsible for keeping up with weekly materials in class and on Nexus.
- Lectures and labs are complementary. It may be beneficial to review course materials before your weekly lab.

### NEXUS SITE FOR LECTURES:

The slide presentations used in lectures will be posted on Nexus (<u>https://nexus.uwinnipeg.ca/</u>). Reading lists, useful links, and supplementary material will be posted as well.

If you are having difficulties with Nexus contact the help desk at (204) 786-9149 or <u>help.desk@uwinnipeg.ca.</u>

## This course is Nexus enhanced. All information posted on the Nexus site for this course is required reading unless otherwise indicated.

### HOW TO CONTACT PROFESSOR BLAIR:

Use your University of Winnipeg email address for course-related correspondence (name@webmail.uwinnipeg.ca). **Do not use the Nexus email function**. Please do not use your gmail or hotmail (or whatever) accounts to correspond with the instructor; these usually get blocked by our spam filter. When contacting the instructor, please make sure you use a proper

subject heading for the email (e.g. "Physical Geography question"). The instructor will make every attempt to respond promptly, except on weekends. The instructor will use your University of Winnipeg email to contact you, when necessary.

Students have the responsibility to check their University of Winnipeg e-mail addresses regularly to ensure timely receipt of correspondence from the University and/or their course instructors.

### DISCORD ONLINE FORUM SITE:

- Dr. Maillet, the Lab Coordinator (who also teaches another section of this course), has kindly created an 'Intro Geo' Discord site in which students can ask each other questions, provide answers, share study tips and resources, and generally create a community to enhance your learning.
- The instructors will moderate and engage in the discussions at times.
- All correspondence on this site must be respectful and related to the course.
- Go to the "Intro Geo" Discord forum at <a href="https://discord.gg/BsXXSxjyFT">https://discord.gg/BsXXSxjyFT</a>

### **COURSE DESCRIPTION:**

This course examines the processes that have shaped, and are shaping, our physical world. In particular, this course provides an introduction to fundamental concepts developed and applied in the important sub-fields of physical geography. Including meteorology, climatology, geology, hydrology, and geomorphology.

### LEARNING OUTCOMES:

By the end of this course students should be able to describe or explain and better understand:

- the primary elements that make up the atmosphere and its vertical structure
- the nature of EMR and the other forms of energy important in the climate system
- the factors affecting incoming solar radiation and outgoing terrestrial radiation
- the components and characteristics of Earth's energy balance
- the forces that drive winds in the atmosphere and currents in the oceans
- earth's pressure, wind, and temperature patterns
- the characteristics of cyclones, anticyclones, air masses and fronts
- the processes related to the formation of cloud and precipitation
- the basic methods and tools involved in weather monitoring and forecasting
- the basic characteristics of thunderstorms, hurricanes, and extreme weather
- the history of earth, its physical structure, and dynamic cycles
- plate tectonics and their role in orogenesis, faulting, earthquakes, and volcanism
- various processes related to weathering (erosion, transportation, and deposition)
- mass movement mechanics and human impacts on this system
- the characteristics of, and impacts on, fluvial landscapes
- the concept of geomorphology and the identification of landscape features in a wide range of environments
- the basic causes of climate change, past, present, and future

### TOPICS FOR DISCUSSION:

The following topics will be covered during the lectures. Due to time constraints and/or unforeseen circumstances, the instructor reserves the right to alter the topics and/or the order of presentation. The listed readings may be found in the recommended textbook, and more precise page ranges are offered on the lecture slides. Additional required readings and/or supplementary materials may be posted on the course Nexus site for review. Students are advised to complete each reading prior to reviewing associated materials posted to Nexus. Unless otherwise indicated, you are responsible for understanding all topics covered in these readings and supplementary materials.

TOPICS	READINGS
INTRODUCTION / ESSENTIALS OF GEOGRAPHY: Introduction to the course	Chapter 1
and to physical geography. Course outline, grading, regulations, expectations.	-
Physical geography as a discipline and foundation for the environmental	
sciences; scale of study; systems; location and time.	
THE ATMOSPHERE: Atmospheric composition and structure, concepts of	Chapter 3
temperature/pressure/density, temperature profile, lapse rates, functional	Chapter 6
layers.	
EARTH-SUN RELATIONSHIPS: The seasons, revolution, rotation, tilt, axial	Chapter 2
parallelism, sphericity, aphelion, perihelion, solstices/equinoxes, declination,	
subsolar point.	
RADIATION AND ENERGY BALANCE: Energy, electromagnetic radiation,	Chapter 2
solar/terrestrial radiation, solar constant, shortwave vs longwave, insolation,	Chapter 4
transmission, absorption, reflection, scattering, net radiation, conduction,	
convection, latent heat, energy balance, greenhouse effect, surface energy	
balance.	
GLOBAL TEMPERATURE: Temperature controls, land-water contrasts,	Chapter 5
maritime-continental effects, global temperature patterns, isotherms, wind chill,	
heat index.	
PRESSURE, WINDS, AND OCEAN CURRENTS: Atmospheric pressure,	Chapter 6
forces that drive wind, cyclones and anti-cyclones, geostrophic winds, global	
pressure and wind patterns, jet streams, ocean currents.	
WATER, HUMIDITY, AND PRECIPITATION: Water on earth, hydrologic cycle,	Chapter 7
humidity, saturation, relative humidity, dew-point temperature, Stability vs.	Chapter 9
Instability, adiabatic process, formation of cloud, cloud classification, types of	
tog, types of precipitation.	
WEATHER: Types of air masses, lifting mechanisms, fronts, midlatitude	Chapter 7
cyclones, thunderstorms, tornadoes, extreme weather, tropical cyclones.	Chapter 8
THE DYNAMIC PLANET: Geologic time scale, earth's layers (core to crust), isostacy, the rock cycle, plate tectonics	Chapter 12
TECTONICS EARTHOUAKES AND VOLCANISM Relief crustal formation	Chapter 13
continental shield folding and warning types of faults, mountain building	
earthquakes volcanism	
WEATHERING AND MASS MOVEMENT: Depudation slopes physical and	Chapter 14
chemical weathering, karst, mass movement mechanics, types of mass	enapter i i
movement, humans as geomorphic agents.	
RIVER SYSTEMS: Drainage divides and basins, types of drainage patterns.	Chapter 15
graded streams, base level, hydrographs, impact of urbanization, measuring	
discharge, stream channel patterns.	
GEOMORPHOLOGY AND GLACIATION: Fluvial processes and landforms.	Chapter 15
coastal processes and landforms, wind processes and landforms, formation of	Chapter 16
glacier ice, types of glaciers, mass balance, glacial movement, glacial	Chapter 17
landforms.	
CLIMATE VARIABILITY AND CHANGE: Carbon dioxide overt the last	Chapter 11
million(ish) years, isotopes and paleoclimate, earth's climate history,	
Milankovitch cycles, climate models, causes of current climate change,	
mitigation / adaptation.	

### **IMPORTANT DATES:**

Normal Fall Lecture Period Begins	Tue. Sep. 6 <sup>th</sup> , 2022
First Lecture in This Course	Wed. Sep. 7 <sup>th</sup> , 2022
Period when Fall and Fall/Winter Term Course	Sep. 6 <sup>th</sup> – 19 <sup>th</sup> , 2022
Registration, Course Adds/Drops and Section Changes	
Occur	
Truth and Reconciliation Day – University Closed	Fri. Sep. 30 <sup>th</sup> , 2022
Midterm Reading Week – No Classes	Oct. 9 <sup>th</sup> – 15 <sup>th</sup> , 2022
Thanksgiving Day – University Closed	Mon. Oct. 10 <sup>th</sup> , 2022
MIDTERM THEORY EXAM	Wed. Oct. 19 <sup>th</sup> , 2022 (in class)
Remembrance Day – University Closed	Fri. Nov. 11 <sup>th</sup> , 2022
Final Date to Withdraw Without Academic Penalty	Wed. Nov. 16 <sup>th</sup> , 2022
Normal Fall Lecture Period Ends	Mon. Dec. 5 <sup>th</sup> , 2022
Makeup Day #1 for Sep. 30 (yes, we have a lecture)	Tue. Dec. 6 <sup>th</sup> , 2022
Makeup Day #2 for Nov. 11 (yes, we have a lecture)	Wed. Dec. 7 <sup>th</sup> , 2022
Last Lecture in This Course	Wed. Dec. 7 <sup>th</sup> , 2022
Final Exam Period	Dec. 9 <sup>th</sup> – 22 <sup>nd</sup> . 2022

\*Please refer to the 2022 - 2023 Undergraduate Academic Calendar for additional dates and schedules.

### STUDENT EVALUATION:

LAB ASSIGNMENTS	40%	DUE DATES: prior to the start of the next lab; or as indicated by the Lab Instructor.
MIDTERM THEORY TEST	20%	Wednesday October 19, 2022 (9:30 – 10:20 am)
FINAL THEORY EXAM	40%	TBA; check <a href="https://www.uwinnipeg.ca/exam-schedules/">https://www.uwinnipeg.ca/exam-schedules/</a>

\* Final grades will be assigned based on accumulated marks from the above components, but you must pass the lab component of the course to pass the course.

### GRADES:

Senate approved grades for courses include A+, A, A-, B+, B, C+, C, D, and F. The University does not have a standardized numerical grade conversion scale for each letter grade. The following numeric grading system **provides guidelines** only for the separation of letter grades in this course. These boundaries may be adjusted at the requested of the Geography Department Review Committee or University Senate. For this course, grade equivalents are as follows:

A+ = 90% and up	B+ = 75.0-79.9	C+ = 65.0-69.9	D = 50.0-54.9
A = 83.0-89.9	B = 70.0-74.9	C = 55.0-64.9	F= 49.9 and below
A- = 80.0-82.9			

**IMPORTANT:** If you do not achieve a passing mark (at least 50% of available marks) in the lab (i.e., the assignments worth 40% of the course) you will be assigned a grade of F in the course.

The Final Theory Exam must be written as scheduled in the 2022-2023 Final Exam Schedule; alternate dates will not be considered. If you have a Final Theory Exam conflict (i.e., two final exams on the same date and time), or if exceptional circumstances prevent you from writing the exam as scheduled, you must contact Academic Advising immediately, otherwise, you must write the final exam as scheduled. Please refer to section 9d, of Regulation and Policies in the 2022-2023 Undergraduate Academic Calendar link: (http://www.uwinnipeg.ca/index/calendar-calendar). Alternate test dates will be considered in very exceptional cases and for legitimate reasons only;

vacation travel is not an acceptable reason. If you miss a test, you must contact your instructor as soon as possible. Documentation (i.e., proof of illness or circumstances beyond your control) may be required before alternate arrangements can be made.

### **TEST/EXAM IDENTIFICATION POLICY:**

Students must be prepared to show their university ID card at all tests/exams.

### **TEST/EXAM AUTHORIZED EQUIPMENT:**

For the Midterm Theory Test and the Final Theory Exam, you are not allowed to use dictionaries, calculators, or any other kind of electronic device. They are not 'open book' tests/exams. You will only need a pen/pencil.

### **VOLUNTARY WITHDRAWAL FROM COURSE:**

Please refer to the 2022 - 2023 Undergraduate Academic Calendar for voluntary withdrawal procedures. Please contact the course instructor if you are thinking of withdrawing from the course.

You must formally withdraw from a course. If you simply stop going to classes, you may receive an "F" on your transcript and loss of tuition credit. Withdrawing before the VW date does not necessarily result in a fee refund.

IMPORTANT: WEDNESDAY November 16<sup>TH</sup> is the FINAL DATE to withdraw without academic penalty from courses which begin in September and end in December of the 2022 Fall Term.

### INFORMATION ABOUT THE LAB COMPONENT OF THIS COURSE:

LAB COORDINATOR: Dr. Jay Maillet

Email: j.maillet@uwinnipeg.ca

Note: Dr. Maillet is your contact for all issues related to labs.

Lab Instructors:	Nathalie Turenne Madelynn Perry Haven Soto Zayn Wolf	E-mail: <u>turenne-n@webmail.uwinnipeg.ca</u> E-mail: <u>perry-m45@webmail.uwinnipeg.ca</u> E-mail: <u>soto-h@webmail.uwinnipeg.ca</u> E-mail: <u>wolf-z@webmail.uwinnipeg.ca</u>
4		E-Indii. woii-z@webinali.uwiiiiipeg.ca

### LAB SCHEDULE:

Section	Day	Time	Room	Instructor
GEOG-1205L-070	Monday	10:30 – 13:20	4CM42	J. Maillet
GEOG-1205L-072	Tuesday	8:30 – 11:20	4CM42	N. Turenne
GEOG-1205L-073	Wednesday	10:30 – 13:20	4CM42	M. Perry
GEOG-1205L-074	Wednesday	13:30 – 16:20	4CM42	H. Soto
GEOG-1205L-075	Thursday	13:00 – 15:50	4CM42	Z. Wolf
GEOG-1205L-077	Online Asynch	nronous	Nexus	J. Maillet

### ABOUT THE LABS:

- The labs in Introductory Physical Geography are considered integral parts of the course and will be presented as such.
- Therefore, it is the responsibility of the student to attend all scheduled labs and to complete the assignments as required. If you are registered in an in-person lab section, you are expected to attend in-person.
- You must achieve a passing mark in the lab in order to pass the course.
- All information pertaining to the lab will be posted to the dedicated lab Nexus site.
- Labs in this course will begin the week of September 12<sup>th</sup> and will be conducted inperson (sections 070 – 076) or online asynchronous (section 077). Please review all materials posted to your lab's Nexus prior to attending your lab.
- The online asynchronous lab section (077) has a dedicated Nexus site. Materials will be made available here on the Monday of each week by 9:00 am.
- Your total lab mark is determined by the marks you obtain in your lab assignments/activities. There is no final lab exam.
- Completed lab assignments are to be submitted digitally (unless otherwise indicated), uploaded to Nexus in a single file of appropriate type (PDF or Word). These are due the following week, prior to your regular lab time.
  - e.g. for section 070 (Monday 10:30 13:20), each lab assignment is due by 10:29 am the following Monday.
- For the online asynchronous section (077), each lab assignment is due Monday by 8:59 am, the week following when it was posted.

 e.g. lab assignment #1 (posted Monday, September 12<sup>th</sup>), is due the following Monday, September 19<sup>th</sup> by 8:59 am.

### NEXUS SITE FOR LABS:

Materials for in-person labs (sections 070 - 076) are posted on a separate Nexus site. Section 077 is delivered online asynchronous and has a dedicated Nexus.

Note: If you are enrolled in an "in-person" lab, you should have access to the "Lab for Intro Physical Geography" Nexus. If you are enrolled in the online lab section, you should have access to the "Online Lab for Intro Physical Geography" Nexus. Everyone should have access to the course Nexus. Alert the instructor if this is not the case.

### LATE WORK:

Unless prior arrangements have been made, lab that are handed in late (after the specified time/date) will not be accepted and will be assigned a grade of zero.

### **NETIQUETTE:**

Students are expected to conduct themselves in a professional manner when engaging with each other, the course instructor, the lab instructors, and teaching assistant. Most importantly, be respectful. Note: tone is quite tricky in an online environment, be sure to re-read things like emails and posts before sending / posting. For tips and tricks: <u>https://www.rasmussen.edu/student-experience/college-life/netiquette-guidelines-every-online-student-needs-to-know/</u> And <u>https://www.grammarly.com/blog/email-etiquette-rules-to-know/</u>

# **OTHER IMPORTANT INFORMATION**

Students can find answers to frequently asked questions related to remote learning here: <u>https://www.uwinnipeg.ca/covid-19/remote-learning-fag.html</u>.

Students are expected to conduct themselves according to the standards and regulations set out by the University of Winnipeg. The University Senate would like you to be particularly aware of the following regulations appearing in the 2022-2023 Undergraduate Academic Calendar under **REGULATIONS & POLICIES: Grading** (Section 4); **Grade Appeals** (Section 10), and; **Student Discipline** (Section 8), especially the definitions of **plagiarism** (Section 8.a.i) and **cheating** (Section 8.a.ii.).

### ACADEMIC CONDUCT:

It is your responsibility to be familiar with the information on Academic Regulations and Policies listed in the 2022-23 University of Winnipeg Undergraduate Academic Calendar <u>www.uwinnipeg.ca/index/calendar-calendar</u>. This section covers classroom regulations, grading, transcripts, challenge for credit, academic standing, student discipline (academic and non-academic misconduct), appeals including grade appeals, general university policies and codes, and graduation. You can find information on plagiarism by watching the University of Winnipeg library video tutorial "Avoiding Plagiarism": <u>https://www.youtube.com/watch?v=UvFdxRU9a8g</u>

A summary of important information regarding Academic Misconduct follows. Where discrepancies exist between the text below and the Undergraduate Academic Calendar, the Undergraduate Academic Calendar will prevail.

### Forms of Academic Misconduct:

- Plagiarism: includes presenting other people's published or unpublished work in part or as a whole as your own. This includes material from lab manuals, essays, journal articles, books, etc. Plagiarism also refers to submitting the same work in more than one course without both instructors' permission and to the situation where two or more students submit identical (or nearly identical) work for evaluation when the work was to be completed individually.
- Cheating: includes copying another person's answer on a test, communicating with another
  person during a test or exam, consulting unauthorized sources (including written and
  electronic sources), obtaining a copy (of all or part) of a test/exam/assignment before it is
  officially available, purchasing tests, essays or other assignments and submitting the work
  as your own.
- Improper Academic/Research practices include: fabricating or falsifying results, using other peoples' research findings without permission, misrepresenting research results or methods, referring to non-existent sources or investigators, contravening the University's Policy and Procedures on Research Integrity.
- Obstructing academic activities of another person; for example, interfering with another person's access to pertinent resources or information to gain academic advantage.
- Impersonation: both impersonation of another individual or allowing someone to impersonate you.
- Falsification or Modification of an Academic Record: including tests, transcripts, letters of permission, etc.
- Aiding and Abetting Academic Misconduct.

### Penalties for Academic Misconduct:

Penalties for academic misconduct include, but are not limited to:

- Written warning
- Lower or failing grade on an assignment or test

- Lower or failing grade in a course
- Denial of admission or readmission to the University
- Forfeiture of University awards or financial assistance
- Suspension from the University for a specified period of time
- Withholding or rescinding a U of W degree, certificate or diploma
- Expulsion from the University

### **Procedures for Academic Misconduct:**

All allegations of academic misconduct must be reported initiating a process which involves several steps. These include procedures involving the instructor of the course in which the misconduct is alleged to have occurred, the Departmental Review Committee, and the Senate Academic Misconduct Committee. Students facing a charge of academic or non-academic misconduct may choose to contact the UWSA Student Advocacy Centre where Student advocates will be available to answer any questions about the process, help with building a case and ensuring students have access to representation. For more information or to schedule an appointment, visit https://theuwsa.ca/academic-advocacy/ or call 204-786-9780.

### Academic Misconduct Policy and Procedures:

https://www.uwinnipeg.ca/institutional-analysis/docs/policies/academic-misconduct-policy.pdf and https://www.uwinnipeg.ca/institutional-analysis/docs/policies/academic-misconductprocedures.pdf

### Non-Academic Misconduct Policy and Procedures:

Students are expected to conduct themselves in a respectful manner on campus and in the learning environment irrespective of platform being used. Behaviour, communication, or acts that are inconsistent with a number of UW policies (e.g. Respectful Working and Learning Environment Policy https://www.uwinnipeg.ca/respect/respect-policy.html, Acceptable Use of Information Technology Policy https://www.uwinnipeg.ca/institutional-

analysis/docs/policies/acceptable-use-of-information-technology-policy.pdf) could be considered "non-academic" misconduct. More detailed information can be found here:

https://www.uwinnipeg.ca/institutional-analysis/docs/student-non-academic-misconduct-policy.pdf and https://www.uwinnipeg.ca/institutional-analysis/docs/student-non-academic-misconductprocedures.pdf

### Misuse of Filesharing Sites:

Uploading essays and other assignments to essay vendor or trader sites (filesharing sites that are known providers of essays for use by others who submit them to instructors as their own work) involves "aiding and abetting" plagiarism. Students who do this can be charged with Academic Misconduct.

### Avoiding Copyright Violation:

Course materials are owned by the instructor who developed them. Examples of such materials are course outlines, assignment descriptions, lecture notes, test questions, videos, and presentation slides. Students who upload these materials to filesharing sites, or in any other way share these materials with others outside the class without prior permission of the instructor/presenter, are in violation of <u>copyright law and University policy</u>. Students must also seek prior permission of the instructor /presenter before photographing or recording slides, presentations, lectures, and notes on the board.

### **RESEARCH ETHICS:**

Students conducting research interviews, focus groups, surveys, or any other method of collecting data from any person, including a family member, must obtain research ethics approval before commencing data collection. Exceptions are research activities done in class as a learning exercise. For submission requirements and deadlines, see <a href="http://www.uwinnipeg.ca/research/human-ethics.html">http://www.uwinnipeg.ca/research/human-ethics.html</a>

### ACCESIBILITY SERVICES:

Students with documented disabilities, temporary or chronic conditions requiring academic accommodations for tests/exams (e.g., private space) or during lectures/laboratories (e.g., access to volunteer note-takers), are encouraged to contact Accessibility Services (AS) at 204-786-9771, or <u>accessibilityservices@uwinnipeg.ca</u> to discuss appropriate options. All information about a student's disability or medical condition remains confidential. <u>https://www.uwinnipeg.ca/accessibility-services/</u>

### INDIGENOUS STUDENT SERVICES:

Indigenous students seeking additional supports, academic or other, are encouraged to contact the Aboriginal Student Services Centre (ASSC). The ASSC offers a variety of support services, and was created to maintain a safe, educational and culturally sensitive environment for all Aboriginal students (First Nation, Metis and Inuit) as they pursue their academic studies at The University of Winnipeg. More information can be found at: <u>http://www.uwinnipeg.ca/assc/</u>.

### SCENT-FREE ENVIRONMENT:

The University of Winnipeg promotes a scent-free environment. Please be respectful of the needs of fellow classmates and the instructors by avoiding the use of scented products while attending lectures and labs. Exposure to perfumes and other scented products (such as lotion) can trigger serious health reactions in persons with asthma, allergies, migraines or chemical sensitivities.

### ACADEMIC ACCOMODATION FOR RELIGIOUS REASONS:

Students may choose to not attend classes or write examinations on holy days of their religion, but they must notify their instructors at least two weeks in advance. Instructors will then provide an opportunity for students to make up work or examinations without penalty. A list of religious holidays can be found at <a href="http://uwinnipeg.ca/academics/calendar/docs/important-notes.pdf">http://uwinnipeg.ca/academics/calendar/docs/important-notes.pdf</a>

### STUDENT WELLNESS:

The University of Winnipeg provides comprehensive general and specialized counselling and health services to all students for free at the Wellness Centre, located on the first floor of the Duckworth Centre (1D25). For more information see https://www.uwinnipeg.ca/student-wellness/

### UW SAFE:

In the event of an emergency, please dial police at 911 or campus security at 204-786-6666 for help. Everyone is urged to download <u>UW Safe, our new campus safety app</u> for mobile devices (through the <u>Apple</u> or <u>Google Play app store</u>). It has emergency contact numbers ready to go with one click. It also contains a "friend walk" option that allows you to be visible in real time as you walk to a destination. SafeRide and SafeWalk programs are also available to everyone on campus including evening hours.

The University of Winnipeg has, in addition to the Respectful Working Environment Policy described below, policies and practices related to sexual violence. These are accessible here: <u>https://www.uwinnipeg.ca/respect/sexual-violence/index.html</u>. If you have experienced sexual violence, here are some important support telephone numbers:

- University Sexual Violence Response Line: 204-230-6660
- Klinic Sexual Assault Crisis Program 204-786-8631 or 204-784-4049 (also available after business hours)
- At Health Science Centre: 204-HSC 787-2071, ask for the sexual assault Nurse examiner (also available after business hours)

### **RESPECTFUL WORKING ENVIRONMENT:**

All students, faculty and staff have the right to participate, learn, and work in an environment that is free of harassment and discrimination. The UW Respectful Working and Learning Environment Policy may be found online at <u>www.uwinnipeg.ca/respect</u>

### **PRIVACY:**

Students are reminded of their rights in relation to the collecting of personal data by the University (<u>https://www.uwinnipeg.ca/privacy/admissions-privacy-notice.html</u>), especially if Zoom is being used for remote teaching (<u>https://www.uwinnipeg.ca/privacy/zoom-privacy-notice.html</u>) and testing/proctoring (<u>https://www.uwinnipeg.ca/privacy/zoom-test-and-exam-proctoring.html</u>).

### **CLASS CANCELLATIONS:**

When it is necessary to cancel a class due to exceptional circumstances, I will make every effort to inform students via UWinnipeg email (and/or using the preferred form of communication, as designated in this outline), as well as the Departmental Assistant and Chair/Dean so that class cancellation forms can be posted outside classrooms.

### CHANGE TO FORMAT OF COURSE?

It is possible that health and safety concerns related to COVID-19 may necessitate the course going online (Zoom). Should this happen, every effort will be made to minimize the disruption to the content and quality of the course and to accommodate the needs of the students.

**Note:** The information presented in this course is the intellectual property of the instructor(s) and is presented for the benefit of registered students only. Any audio, video, or virtual reproduction of the lectures or labs, or any posting or distribution of course materials, either in whole or in part, without the express written consent of the instructor(s) is strictly prohibited.
