

The University of Winnipeg DC Pension Plan

Important changes to your investment options

The University is committed to ensuring you have a retirement savings plan that helps you reach your saving goals. The Board of Trustees recently conducted a survey to obtain participating member feedback on the University of Winnipeg DC Pension Plan. Based on the results from this survey, the Board of Trustees decided to update the plan's fund lineup.

Read this communication to learn about these changes and what they mean to you.

What's changing?

As of **August 9, 2010**, a selection of funds were added to the **University of Winnipeg DC Pension Plan**. Also as of **December 9, 2010**, a number of funds will be eliminated from your plan's list of investment options. You have until **December 6, 2010**, to transfer your assets (known as an interfund transfer) invested in any of the discontinued funds to one of the remaining funds and to update your investment instructions for future contributions. Any assets remaining in the closed funds as of this date, or any future contributions that are not re-allocated as of this date, will be automatically transferred to a similar replacement fund.

About your pre-built option(s)

Your plan offers you a pre-built investment approach – target date (lifecycle) funds.

These funds are structured to coincide with a key life event, such as retirement, and have asset mixes that adjust automatically as you get closer to your target date. All you have to do is determine your target date and invest in the fund that most closely matches this date.

Update your retirement portfolio

You can access Sun Life Financial's Plan Member Services website to update the investment options in your retirement portfolio. But, before you do this, follow these steps to ensure your investment strategy is right for you.

Step 3 – What's your vision of retirement?

Planning can be easy with the **Retirement planner**. The planner will suggest a retirement lifestyle based on the information you enter about your current income, additional savings and your investment risk tolerance. To access this tool, select **my money tools** under the **Resource Centre** drop-down menu followed by **Retirement planner**.

Step 4 – Learn about your investment options

Better fee disclosure!

Both the University of Winnipeg and Sun Life Financial are committed to better disclosure of the fees you pay on your investments. At the end of November you will be able to see the amount of fees that you pay come out of your account each month. Currently, your fees are hidden in the unit value and although you know the percentage you pay, it's been difficult to calculate the exact amount. You've always paid these fees but now you'll see them each month online and on your member statements.

Information sessions coming!

A representative from Sun Life Financial will hold the following information sessions. Watch for more information about session locations.

October 18, 2010, from 9 to 10:30 A.M.

October 19, 2010, from 4 to 5:30 P.M.
