

THE UNIVERSITY OF WINNIPEG

The Faculty of Science sciences.uwinnipeg.ca

Department of Biology

The Department of Biology at The University of Winnipeg invites outstanding candidates to apply for a tenure-track appointment at the rank of Assistant Professor. The ideal candidate will possess a Ph.D. in Biology or a related field with a strong research focus in the areas of Developmental Biology, Genetics, and/or Cell Biology. Postdoctoral experience is preferred. The Department of Biology is looking for a highly motivated and energetic candidate who will develop a strong, independent research program, deliver world-class training for research students, and provide outstanding teaching in the classroom.

The Department of Biology is one of the largest in the University and offers 3 and 4 year B.Sc. degrees, as well as a B.Sc. Honours and a M.Sc. in BioScience, Technology and Public Policy. There are opportunities to supervise Ph.D. students via adjunct appointments at other institutions. The Department is entering an exciting phase of faculty renewal and is located in the state-of-the-art Richardson College for the Environment and Science Complex in downtown Winnipeg. Department members are active in a range of research areas (<https://www.uwinnipeg.ca/biology/index.html>).

The successful applicant will have opportunities to collaborate with researchers in the department, at The University of Winnipeg, and in the cluster of associated academic and research agencies in the region. The successful applicant will be expected to develop an externally funded research program and supervise undergraduate and graduate research students. Depending on expertise, the successful applicant may teach undergraduate courses in Cell, Developmental Biology and/or Genetics, and will have opportunities to develop upper level and/or graduate courses related to their research interests.

Subject to budgetary approval, this position will be effective from July 1, 2018. Salary levels will be commensurate with qualifications and experience.

The selection committee will begin reviewing applications on January 29, 2018 and will continue until the position is filled; full consideration is assured for applications received by January 28, 2018. Applicants must submit a cover letter, curriculum vitae, outline of proposed research program (maximum two pages), a statement of teaching philosophy including evidence of teaching effectiveness (maximum two pages), and three representative publications (all documents in PDF). Candidates should also arrange to have three letters of reference e-mailed directly to:

Dr. Judith Huebner, Chair
Department of Biology
