THE PARADE ROUTE

RE-ROUTE PROCEDURES

If a float encounters a problem and can no longer move forward the problematic float participates need to dismount immediately. They can either remain in the parade as a walking group or join the spectators on the sidewalk. The problematic float marshals needs to assist in re-routing the parade to prevent the parade stopping or gaps forming. The four marshals should space themselves to cover the front, right side and back of their float. Working with the other float marshals and Pride Winnipeg route marshals the parade needs to be re-routed to the **right**.

The Parade and Rally Director needs to be informed of the blockage.

If emergency services are needed 911 should be called immediately.
