

University Animal Care Committee (UACC)

Schedule 5: Behavioral Experiments

1 List the behavioral tests which will be performed.		
2 Please describe the procedure for each behavioral test.		
3 If behavioral equipment or apparatus will be used, describe or provide an illustration. Does the device produce any physical danger or possibility of injury to the animal		
4 Will punishment, electric shock or negative reinforcement be used? <input type="checkbox"/> YES <input type="checkbox"/> NO If yes describe. (Note if negative reinforcement or punishment involves pain, "Schedule 2" must be attached)		
5 Will aggression between animals result from the proposed procedures, either intentionally or as a negative side effect? (For example, because of pain, frustration, inter-male aggression, etc.)	<input type="checkbox"/> YES	<input type="checkbox"/> NO
5.1 If YES, how will aggression be minimized?		

6 Is abnormal behavior likely to be elicited either intentionally or as a negative side effect? (For example, excessive grooming or vices such as tail biting, weaving or barbering)	<input type="checkbox"/> YES	<input type="checkbox"/> NO
6.1 If YES, how will these effects be minimized? (For example, by provision of environmental enrichment, shortened duration of treatments, etc.)		
7 Are predator-prey relationships being studied, or are they required for maintenance of the species being studied, such as snakes?	<input type="checkbox"/> YES	<input type="checkbox"/> NO
7.1 If YES, how will distress to the prey be minimized?		
8 Will sensory deprivation be used?	<input type="checkbox"/> YES	<input type="checkbox"/> NO
8.1 If YES, describe the duration and type of deprivation.		
8.2 Provide a rationale for both the type and duration of sensory deprivation.
