The catalog year is the year of the Academic Calendar containing the requirements a student must complete to earn a degree. Because degree requirements may change over time, a student may elect to change the catalog year to utilize requirements from newer or older calendars that fit best with their academic record. Students may not select a catalog year from years prior to the year of their admission to The University of Winnipeg.

When changing catalog years, students must meet all of the new requirements completely. Most changes on a year-to-year basis are minor; however, in some cases, changing the catalog year may have major implications for completing a degree and students should know exactly how this would impact them before making the change.

NOTE: Meeting program and degree requirements is the student's responsibility. Students are strongly advised to consult the University Academic Calendar and their Department Advisor or Academic Advisor for more information.
